

## RADHA GUM NAB

### PROPERTIS

Appearance	Creamish Yellowish powder
Solubility	Swells in water
pH	About 7 (1% Solution)
Shelf Life	5 Months

### APPLICATIONS

RADHA GUM NAB is offered as a thickener for printing with Acid, Metal complex and Disperse dyestuff. It is particularly suitable for "Brosso Style" printing. It can also be used for printing Reactive dyestuffs.

### PREPARTION OF STOCK PASTE;

The stock paste is prepared by slowly sprinkling RADHA GUM NAB powder onto hot water (80° to 90° C) under rapid stirring, till homogeneous mass is obtained. It can also be prepared by conventional cooking method.

Suggested recipe for stock thickening is as follow:

RADHA GUM GGA	35 gms
Water	965 gms
	<hr/>
	1000 gms

It is advisable to keep stock past overnight to facilitate proper swelling.

### RECOMMENDATIONS:

The stock thickening can be used in the printing of the above mentioned dyestuffs adopting the normal applicable recipe for their printing. This thickener can also be successfully used for Resist printing under Nephthol and Brosso style of printing.

To economies, the thickening can replace kerosene up to 10% in pigment printing.

### PACKING:

50 kegs. Polyethylene lined hessian bag.
